

# Summer 2022 EcologyPlus Newsletter

<b>EcologyPlus</b>				
Where Diversity Meets Opportunity	Mentoring & Networking	Explore Career Pathways	Access Opportunities	Overcome Institutional Barriers & Bias

## Introducing Cohort Two!

After nearly two years of hiatus, EcologyPlus was finally able to launch its programming for cohort two this past fall! Our students are first-year undergraduates to PhD candidates and represent 8 different universities. They have interests ranging from agricultural economics to wildlife biology. It is our pleasure to present our phenomenal students!

Read more about their interests and studies at <https://esa.org/ecologyplus/mentees/>

## Meet Our Mentors!

EcologyPlus offers year-round mentoring and this year we welcomed back previous mentors, as well as a few new faces! Our mentors work and represent many fields in environmental science from the federal and local government to NGO's and private companies. All of them are inspirational and are wonderful leaders to our students! Check out their bios to learn more about what they do and why they do it!

View the mentor bios here:

## Check out our events!

Over the past few months EcologyPlus has hosted a handful of thoughtful and engaging webinars! Check them out on our [YouTube channel](#).

Past webinar topics:

- [Sow Your Career in Agriculture](#)
- [Diversity in Environmental Leadership and Science](#)
- [Black History Month: Highlighting Student Research](#)
- [Career Panel: Policy, Advocacy, and Environmental Law](#)

## Sign-up for our Weekly Job Bulletin!

Looking for a job or career advice? Sign-up for our weekly job bulletin and get opportunities for undergraduates to early-career scientists directly to your inbox! Each week we feature a career article, events, internships, fellowships, scholarships, and jobs!
